IN "FOOLKILLER"

Peter Nissen Frozen or Suffocated in His Aquatic Balloon.

Chicago, Nov. 30.-Peter Niesen is believed to have either smothered or frozen to death in his rolling balloon, "Foolkiller " in which he started for a trip across the lake yesterday.

The opinion that Nissen was lost be-came general this afternoon, when it was found that after twenty-four hours there was still absolutely no word from the in-ventor, who some years ago shot the whiripool rapids of Niagara Falls in a bar-rel. He had not been sighted by any ves-

rel. He had not been sighted by any vessel.

The possibility of Nissen's smothering to death was considered more definitely when it was learned that his only supply of air was that pumped into the "Foolkiller" before the crait was launched. It was said by Nissen's brothers, however, that the navigator had computed his air supply carefully, and figured that it would last him for a great number of hours.

At the Weather Bureau it was said that even if Nissen reached shore he would suffer from the cold, as there was a snow-storm blowing near the Michigan shore, and that, as his boat had no means of heating, and permitted of no air, the navigator would suffer severely. The wind toward midnight increased from twenty-five miles an hour to a forty-mile rate.
